Alternative investments, particularly with the introduction of the AIFMD regime, have become a significant pillar of the European investment management industry. Luxembourg has created a favourable environment for the structuring of alternative vehicles. When conducting their business, Swedish Asset Managers can avail of **Luxembourg's offering in terms of distribution, tax, legal and regulatory environment and expertise.**

We are pleased to invite you to join us in Stockholm on **Wednesday 30 May 2018**, where **key players of the Private Equity and Real Estate Industries** will discuss the current market trends in Luxembourg and Sweden. A concrete **case study illustrating the common opportunities between Sweden and Luxembourg** will be presented by one of the major Swedish Asset Managers.

You will then have the opportunity to follow in a small group of participants three workshops facilitated by experts from **Arendt & Medernach, Deloitte, FundRock Management Company S.A., RBC Investor & Treasury Services** on the AIFM, investment vehicles and tax structuring in Luxembourg.
