

e-Learning - The ABC of ESG

Introduction

In today's society sustainability has become a clear point of focus for most, if not all, companies and investment funds. Understanding what lies behind the E, the S and the G of ESG is key to defining an investment strategy fit to your organisation which, when successfully executed, effectively identifies the positive performance opportunities while managing the potential risks.

Launched in December 2020, our training programme on sustainable finance is modular in order to best fit your learning objective and to allow a step-by-step approach to sustainable finance.

The participants will get an overview of key ESG concepts and the regulatory horizon and will understand the impact and practical challenges inherent in the implementation of sustainable investment strategies.

Content

- Module 1 - Introduction
- Module 2 - Key ESG concepts & definitions
- Module 3 - Regulatory aspects
- Module 4 - Practical challenges & trends

Subject-matter experts

Our subject-matter experts come from all over our specialised and complementary teams, covering all legal, regulatory, taxation and advisory aspects of doing business in Luxembourg.
