# about Arendt

We are lawyers, regulatory consultants, business advisors, tax, corporate and funds services experts.

We bridge the gap between legal advice and its implementation.

We adopt an integrated approach to solving your business issues.

We are Arendt – the leading legal, tax and business services firm in Luxembourg.

# about Arendt Business Advisory

Arendt Business Advisory (ABA) is Arendt’s dedicated management consulting firm - the first in Luxembourg to be within a law firm.

ABA offers a full range of economic, financial and business advisory services. The combination of our Advisory practice with Arendt’s established legal and fiscal services allows us to secure the legal compliance of our recommendations where needed.

ABA assists decision-makers in private organisations, family businesses and public entities, in sectors ranging from banking to renewable energy and manufacturing.

We operate locally as well as abroad, through Arendt’s global network and presence.

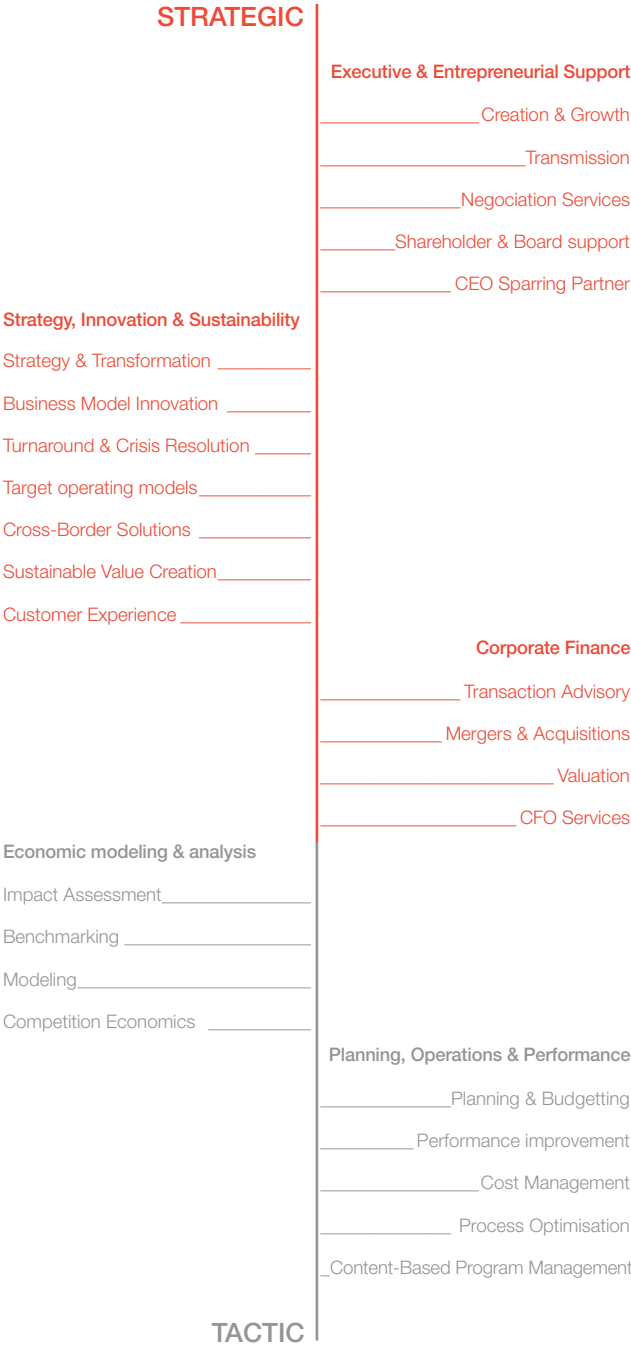

### A different approach to business advisory

*Experienced team* – Our team leverages an extensive field of experience; in management consulting, entrepreneurship, board membership, with multinational companies or start-ups. Our leading advisors are experienced professionals, working hands on, to advise decision-makers and bring tailor-made solutions.

*Transparency on fees* – Our expertise guarantees results within your budget. We are responsible for the budget proposed and we deliver on our promises. In most situations, we propose fixed fees or, where it applies, success fees.

*Relationship of trust* – Our responsibility is to give you valuable and practical advice. A relationship based on trust starts with an investment. We take the time to listen, to explore, to share ideas and open new perspectives. Our purpose is to know your business in order to provide you with valuable advice.
