Implementation of DAC 6 in Luxembourg

Objectives

The law of 25 March 2020 (or “DAC 6 Law”) introduces the reporting to the tax authorities of certain information on reportable cross-border arrangements by intermediaries or the taxpayer in certain circumstances.

This training session allows the attendees to get an overview of the assessment of cross-border arrangements as well as the reporting obligations regarding the reportable cross-border arrangements and to address their questions to the experts.

Content

In order to ensure you will have a rich experience, a legal expert of Arendt & Medernach teams up with an expert of Arendt Regulatory & Consulting.

Be sure to have some questions ready and to make the most of it.

The session will cover:

- Background information on administrative cooperation requirements
- Persons liable to the reporting
- Identification of reportable cross-border arrangements
- Information disclosed and practical consequences
- Considerations on reporting obligations
