Duty to prevent undue cost in funds

### Where do we come from?

20202022

**■** EU Commission report on cost

20102013

ESMA supervisory briefingESMA CSA

and charges

- CSSF data collection
- **■** CSSF report
- CSSF communiqué de presse
- CSSF ORC template

AIFMD level 2

Regulatory principle

UCITS Level 2 Directive (CSSF regulation 10-04)

Regulator supervision

2023

**■ ESMA opinion** 

Re-inforced regulation

Duty to prevent undue cost in funds

# Regulator supervisory actions

#### Outcome of CSSF reviews in the context of the CSA

- Weak documentation of pricing process especially for smaller IFMs
- Over-reliance on delegated PM
- No consolidated pricing process but different procedures (e.g. FA control, internal control, KIID production, etc.)
- Absence of periodic review, lack of review of costs vs performance
- Attention to EPM
- Conflict of interest with related parties

- IFM must define and implement a structured formal pricing process
- 2. Perform an **independent** analysis
- 3. Annual review process

#### **Undue cost concept**

- be consistent with the investment objective and the characteristics of the fund
- **be linked to a service** provided in the **investor's best interest**
- **be proportionate** compared to market standards
- be sustainable/viable (perf/risk/cost/size)
- ensure investors' **equal treatment**
- not be duplicated
- Be clearly **disclosed**

4

Duty to prevent undue cost in funds

# Luxembourg market insight

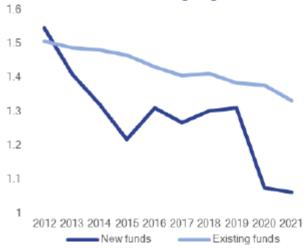

- 1. CSSF question to board in respect of AUM size and costs
- 2. CSSF on site inspection (request for pricing policy and justifications for funds that are too small and too expensive)
- 3. Some funds identified to be too small or expensive have been liquidated (March 2023 +/-7)
- 4. Increase of CSSF questions during fund set-up and approval regarding fee levels or in case of fee increase and prospectus change
- 5. Other questions
  - 1. Allocation PM / advisor fee
  - 2. Special case regarding the "Quantitative algorithms"

Statistics

# Interesting trends

ASR-CP.2 TER of new and existing funds Pronounced decline in on going costs

Note: EU UCITS retail funds, total expense ratio (TER), new and existing funds, %. Sources: Refinitiv Lipper, ESMA.

#### **Passive vs Active**

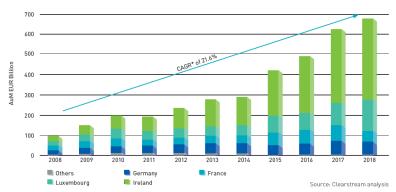

### PASSIVE vs. ACTIVELY MANAGED EQUITY ASSETS: NET FLOWS OF U.S. STOCK MUTUAL AND EXCHANGE TRADED FUNDS

Sources: Morningstar; Note: Does not include money market funds

### .....but do we have to oppose them?

Figure 1: Evolution of AuM for ETFs in Europe

#### ASR-CP.8 Number of neo-brokers users Use of neo-brokers on the rise

lote: Number of customers (or accounts) of the selected region, millions per ear. Ner-brokers exclude cryptocurrencies and robo-advisors. iources: Statista ESMA.

The larger EU context

## Retail investors and Value-for-Money

### Value-for-Money

Novel approach in EU to defining, conceptualising and measuring the utility that investors can derive from investing in certain products

Defining and identifying well-designed and cost-efficient products, allowing consumers to seek higher returns and providing them with good value for the money they invest is crucial

"Costs are, therefore, a particularly important factor to be aware of when investing."

ESMA has taken several actions to improve transparency across the EU

- Identification of UCITS with high costs (Data collection exercise @national level)
- Harmonisation of the way fund managers charge performance fees (ESMA guidelines)
- Identification of UCITS potentially engaging in closet indexing activities
- Common Supervisory Action (CSA) on costs and fees for investment funds (ESMA supervisory briefing) "Duty to prevent undue cost"

Source: ESMA50-165-2357

# The EU Retail Investment Strategy package – at one glance

#### Product manufacturer

#### Changes to UCITS and AIFM Directives

- Documented IFM Pricing process
- Undue cost analysis per fund
- Investor re-imbursement of undue cost
- Prohibited sales to retail if fund costefficiency is not aligned with benchmark published by ESMA
- Changes to PRIIPs Regulation
  - New section 'product at a glance'
  - New sustainability section
  - Amended rules for MOPs cost disclosure

#### Product distributor

#### Changes to MiFID II

- Disclosures
- Retail advice value for money concept
- Inducements ban in execution-only environments
- Product governance
- Suitability and appropriateness assessments
- Professional investor status

#### Changes to IDD

Similar requirements

Marketing communications

Digitalisation

Financial literacy

## The EU Retail Investment Strategy package – timeline

#### Roadmap

Feedback period 20 April 2021 – 18 May 2021

FEEDBACK CLOSED

#### **Public consultation**

Consultation period 11 May 2021 – 32 August 2021

FEEDBACK CLOSED

#### **Commission adoption**

Feedback period 25 May 2023 - 23 August 2023

FEEDBACK: OPEN

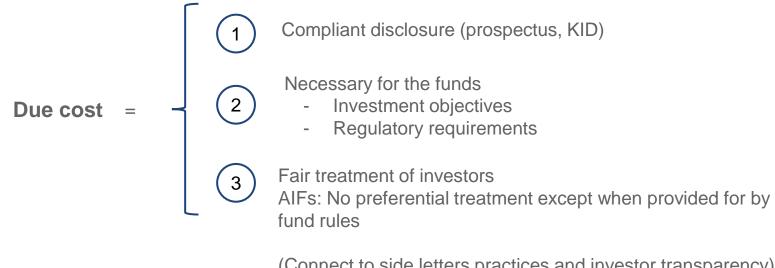

#### **Application**

18 months after the date of entry into force of this Directive

### Undue cost definition

(Connect to side letters practices and investor transparency)

« White list »

Eu Commission Delegated act expected on list of eligible costs that can be charged to UCITS and AIFs

Cf. Annex VI of PRIIPS regulation?

# Pricing process

IFMS have to implement and document a structured and formalised pricing process

- 1. Policy document subject to periodic review
- 2. Evidencing management body involvement

Identification of costs

4. Quantification of costs

5. Justified (no undue cost, white list, allocation process, validation process)

6. Proportionate: comparison with market standards
Not required for AIFs marketed to professional investors

Benchmarking Today

Tomorrow (BIS)

ANNUAL REVIEW

Documentation

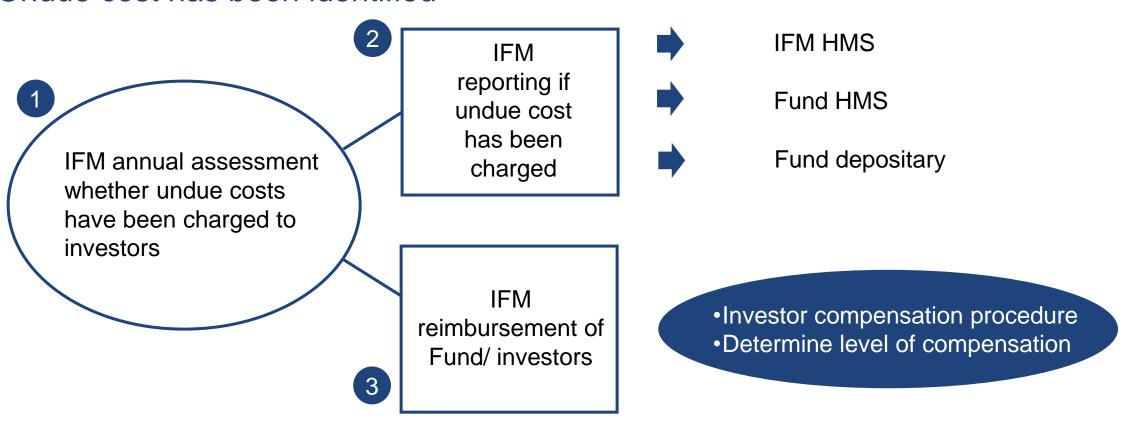

Peer fund data

ESMA benchmark

13

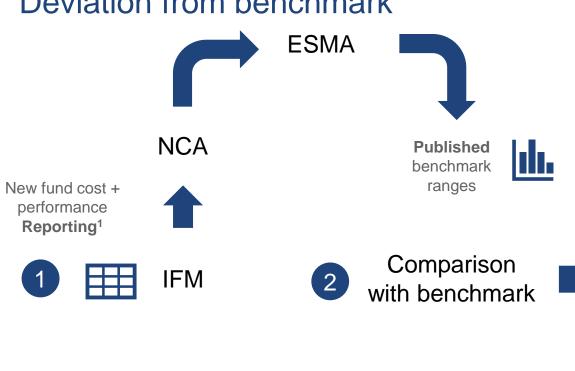

### Undue cost has been identified

### Deviation from benchmark

<sup>1</sup> Corresponding reporting duty by MIFID distributors/ insurance brokers, including any distribution costs IFM justification and proportionality of costs and charge<sup>2</sup>

3

Fund deviates

from the relevant

benchmark

OR

Shall not be marketed to **RETAIL** investors<sup>2</sup>

<sup>&</sup>lt;sup>2</sup> Corresponding equivalent provisions apply as well to MIFID firms and insurance companies

## Public benchmark – what is not clear today

EFAMA "How quantitative benchmarks (to be developed at a later stage by ESMA) would work in practice is not yet clear."

- ➤ Will benchmarking rely on simplistic or granular product categorisation?
  - EFAMA "Cost is only one of many measurements of value and that value means different things to different investors. There should be scope for other factors to be taken into account, like sustainability goals or income generation for instance."
- Will active/ passive portfolio management criteria be considered to identify in which benchmark category you belong?
- ➤ Will the deviation detection be an annual process or is it required to implement additional ongoing routine controls?

Conclusion

# Key Takeaways

### Potential impact on the product range

- Urgency to conduct product cost-efficiency/ attractiveness analysis (documentation)
- Deal with too small funds
- Review product range if required
- Assess value of services to funds

### Potential high impact on fund distribution

- Assess the impact on distribution model/network
- Identify potential alternatives to trailer fee system
