Giuliano Infantino

Introduction

Giuliano Infantino is a Director at Arendt Regulatory & Consulting, in the Advisory practice, with over 6 years of experience in the financial sector.

Giuliano has a solid experience in managing large transformation projects (agile & waterfall) on both pure IT and UCITS & AIF funds related programs, in defining IT target operating models and in architecting solutions built on emerging technologies.

Education

- Giuliano holds a master's degree in computer and management engineering from the Polytechnic Faculty of Mons (Belgium) and several certifications in project management, testing, automation and cloud computing.

Previous experience

Giuliano started his career working for a private and retail bank and then joined a big 4 in Luxembourg where he developed his skills in the financial sector and in particular in asset management and asset servicing.
