

Julien Ganter

Introduction

Julien Ganter is a Partner at Arendt (ARC).

His work focuses on managed services, transformation and ESG-related products.

Julien contributes to the development of our managed services in the ongoing transformation in the fields of asset management and private asset, as well as consulting services.

His field of expertise includes defining business and operational strategies and driving large transformation projects, ranging from operational processes and IT application reviews, smart-sourcing strategy design and deployment and change management.

Education

- Julien holds a Master of Science Degree in Business – Major in Finance from the Ecole de Management de Strasbourg (France).

Previous Experience

- Julien spent most of his career as Partner at a Big 4 firm in Luxembourg, where he led the Asset Management Teams and was in charge of the Intelligent Automation and ESG initiatives.
